PRETUL SISTEMELOR

Pretul difera in functie de dimensiunea golului, inaltimea si latimea usii, numarul de ochiuri din usa, profilul ales – latimea lui, sina aleasa (numarul de canale). Astfel, cu cat este mai simpla cu atat este mai ieftina.

Pretul se calculeaza automat cu ajutorul programelor speciale instalate pe computerele agentilor nostri sau pe cele de la fabrica.
